

# AGILITY SEMINARS WITH ANNETTE ALFONSO

**August 16, 2018 at Bon-Clyde Learning Center**

**Annette Alfonso Bio:** Annette is an accomplished dog trainer and competitor from Puerto Rico who turned her passion for training into a profession in 1997. After spending several years traveling the country performing with her canine team as part of the Purina Incredible Dog Team, Annette started teaching Agility full time in Miami, FL.

She has competed with her dogs at numerous AKC and USDAA National events and represented Puerto Rico on an international level while competing at the World Agility Open Championships in England in 2011 with her dogs Dealer and Legend (Legend placed 4th in the Pentathlon class), at the IFCS Worlds in Texas in 2012 (Legend) and again at the World Agility Open Championships in Spain in 2013 (Legend). In 2014 at the IFCS CCOA Annette and Legend won silver in the Individual Biathlon. More recently (2013-2016) Annette has traveled to England, Austria and the Channel Islands to compete in various agility Festivals and Open competitions.

As much as she enjoys performing with her own dogs, Annette thrives on coaching others to be the best they can be and helping students achieve their training goals.

For Annette, training the 'perfect' dog begins with a strong relationship and realistic training goals geared toward the dog's individual talents. Most importantly, it doesn't matter whether you are training the next world champion or your best canine companion, keeping it fun is always the most important rule!

## Sessions

### Session 1—Mental Game Challenges— 9 AM to 12 PM

Do you find yourself lost on course or unable to think on your feet when things don't go as planned? Then it's time to work on YOU! This workshop will help you prepare yourself mentally to be the best handler you can be for your dog, to set goals for every run and handle with intent.

Using fun game challenges, we will focus on the handler's ability to recognize sequence elements that will simplify their decision making. Any handling option can work as long as you make it your own and execute it with confidence. Take the challenge to train your brain. *Appropriate for dogs running jump sequences with 10 or more jumps.*

### Session 2—Jumping Skills — 2 PM to 5 PM

We will set a variety of stations that will each work on a different skill. The goal is for your dog to learn how to control their jumping and improve on their style. *Appropriate for novice, advanced and excellent level dogs.*

### Session 3 —Discrimination Challenges — 6 PM to 9 PM

*This workshop will test your skills with exciting obstacle discrimination challenges. We will focus on your handling as well as your dog's ability to keep the line you have set and not take their obstacle of preference! Subtle challenges are sometimes the harder ones. Recognize them, so you can handle them!*  
*Appropriate for Excellent/Master level teams.*

**Sessions are limited to 9 Workings Spots and Unlimited Auditors**
