

Agility Seminars With Kristy Netzer

February 3- 4 2018

Saturday Morning 9:00 am – 12:30 pm

Obstacle Commitment:

All Levels:

This is a common word that isn't often explained. To put it in a nutshell, you want your dog to commit to an obstacle so you can leave before your dog actually take the obstacle. In other words, you show your dog a jump, and then you leave. As you leave, your dog continues his path and takes the jump. This is a fantastic skill that will allow you to get further forward on the course. A huge advantage for the speed challenged handler!

Saturday Afternoon 1:30 pm— 5:00 pm

Weave Pole Entrance and Staying in Them:

Dogs who already understand how to weave: This session is for handlers who's dogs already understand how to weave, but are having trouble finding the entrance or staying in the poles. Kristy will explain her technique for teaching fast and solid entrances as well as exercises to teach your dog to stay in the poles. If your dog does not know how to weave, this seminar would be a great one to audit as these techniques are also how she teaching her dogs to weave.

Sunday Morning 9:00 am—12:30 pm

Course Analysis:

Novice/Advanced Level Students:

Deciding the best way to handle a course, which crosses to use, and how to showcase your and your dogs handling strengths is what this session is all about. We will review several Advanced level courses and discuss various handling options. Then everyone will run the courses.

Sunday Afternoon 1:30 pm—5:00 pm

Premier and Master Level Challenges:

Masters Level Students: This session is for students who wish to run Premier classes as well as UKI and USDAA Challenger courses. Kristy will teach the basic skills needed to get started on these challenges and will make it very "user friendly". If you've wanted to give these new skills a try, but have felt overwhelmed by them, this is the seminar for you!

Kristy Netzer Bio: Kristy attended the first ever dog agility seminar in Southern California in 1989. The teamwork, competition, and fun attracted her to this wonderful new sport. With encouragement from her fellow competitors, she started teaching agility in 1995. She has since taught hundreds of students and shown them how to incorporate extraordinary distance skills into their handling systems. In 2010, Kristy produced a video, "Dial Up The Distance" for Clean Run and she writes monthly articles for the magazine.

Kristy's students range from highly athletic handlers who compete on the world team, to physically challenged handlers. She has helped more than 75 handlers earn their Championship titles. Kristy has earned

agility championships with 4 of her own dogs. She is currently running a 3 year old Border Collie named Diggity and has a new puppy who is just beginning to learn the sport.

There will be a 1 hour lunch break both days.

List of local restaurants will be provided.

SESSION	WORKING SPOT \$100	AUDITING SPOT \$50
